Date issued _____ Signed _____

Certificate Number _____

HULAMIN hereby guarantees that the Color-Tech G4 coated aluminum panels will not, for a period of ten (10) years from the date of despatch from our works (the commencement date), flake, blister or peel on exposure to the weather due to faulty application of the surface coating, nor will the surface coating show objectionable, uneven fading, or colour change, provided the surface is maintained by a *regular cleaning programme.

This guarantee does not extend to cover any form of damage attributable to fire, lightning, windstorm, hail or other Acts of God, air or chemical pollution, misuse, impact or forming damage, abuse or negligence in cleaning or maintaining, or defects due to handling, installation or other occurrences beyond the control of HULAMIN ENGINEERING SOLUTIONS.

No claim will be entertained unless it is received in writing by HULAMIN ENGINEERING SOLUTIONS before the expiry of the guarantee period of ten (10) years, and unless the claim is accompanied by a copy of this guarantee, or reference is made to the guarantee number quoted on the certificate. The claimant's full name and address, the address of the premises where the aluminum panel(s) to which the claim related can be inspected, and details of the date of installation shall be provided to HULAMIN ENGINEERING SOLUTIONS.

Upon receipt of a claim, HULAMIN shall have the right to inspect, test and take samples of the aluminum panel(s) to which the claim relates.

If, after inspection, HULAMIN determines that the claim is valid under this guarantee, they shall have the following options:

1. To repair and make good coated surface of any panel which is the subject of a valid claim in terms of this guarantee, or
2. to deliver a replacement aluminum panel for each panel which is the subject of a valid claim in terms of this guarantee.

There are no warranties, conditions or representations, express or implied, relating to the surface coating of the aluminum sheet supplied by HULAMIN, except as set forth herein. The liability of HULAMIN is expressly limited to the refinishing or replacement of Color-Tech G4 coated panels, as provided herein, HULAMIN shall not be responsible, by contract or in negligence, for any loss or damage, including consequential loss or damage, howsoever arising. HULAMIN shall not be responsible for the installation costs of panels which have been replaced or repaired in terms of this guarantee.

This guarantee will be invalidated should the panels have been removed from the position in which they were originally installed.

This guarantee operated in favour of the person to whom it has been issued, and neither this guarantee nor any rights under this guarantee may be ceded to any other person without the prior written consent of HULAMIN ENGINEERING SOLUTIONS.

* A regular cleaning programme is considered to be regular rain washing panels in a vertical position or facing upwards, or the physical washing of panels with mild, neutral household detergent (eg: Teepol, Golden Products Super10) and a cloth or soft brush - every 3 months for all external ceiling underhangs, panels in areas or situations where dirt regularly accumulates, panels not exposed to regular rain washing, installations within one kilometer of the coast, and for installations in heavily polluted industrial areas and every 6 months for inland installations.
