LOUVOLITE

GUARDIAN

A popular plain fabric with a textural stitch. We've decreased the range to offer a commercially neutral palette and revived Royal Blue and Chalk.

We have added this range back into our domestic collection as the stitchbond fabric offers a keenly priced alternative to a woven fabric and has great handle and durability.

DAPPLE SPC+

A popular stitch bond fabric featuring our reflective Solar Protective Coating. It enhances the fabric's thermal energy performance by reflecting heat and light more effectively while reducing glare for improved visual comfort.

Mirroring 5 shades from the Guardian range, Dapple hits the spot for both domestic and commercial specifications.

- | | |

RITZ

Ritz, a textured woven plain dressed up with an eye-catching lustrous yarn, has been a firm favourite for several collections.

Simple patterns tend to be more timeless and less subject to trends. This means they can remain stylish and relevant for longer periods, making them a good investment for window treatments.

The 3 classic colourways provide a quiet elegance that will enhance a room's aesthetic.

COMO

Watercolour stripes have gained popularity in interior design for their ability to bring a soft, artistic touch to a space. Como incorporates bold brush strokes in a loose watercolour style, with statement accent colours, striking a balance between timeless and trendy.

Offering an alternative to florals and geo's, this design continues to be a firm favourite.

We've refreshed the colour palette, adding a green colourway to this light filtering range and we have introduced a Como Blackout, for a refresh and to ensure lasting appeal and style.

DRAPER

The Geo trend is popular for its versatility, offering a contemporary look that can complement minimalist or eclectic interiors.

Draper is a mid-century modern inspired design printed on a light filtering base that features geometric shapes, natural textures and strong colours.

The design is stylish and modern and would certainly be a focal point in a room.

GINGKO

Watercolour florals are still hugely popular in interior textiles. They have successfully bridged the gap between traditional and contemporary design, making them a versatile and enduring choice in home interiors. Their blend of softness, artistic flair, and connection to nature ensures they will continue to be a favoured trend in the years to come.

This pretty free-flowing ginkgo design in soft watercolour shades of blue is calming and serene and is transformed with daylight, giving it wide appeal.

MONET - BLOOM

The trend for large-scale 'maximalist' floral printed textiles is still strong in interior design. It blends classic motifs with contemporary aesthetics, creating vibrant, bold, and expressive designs.

Monet is exactly this. Enhanced by the vibrant strokes of purples, oranges and greens against the anthracite background, it's a beautiful light filtering design that you can't take your eyes off.

ACACIA

With its textural 'island paradise' leaf pattern, Acacia embraces the tropical trend but in a simple, stylised approach so has been a firm favourite in the collection.

The warm 'Caraway' colour embraces the staycation vibe and has proven to be popular. We have recharged the range with a new warm monochrome colour 'Ebony'. The monochrome trend in interiors, especially with patterned fabrics, is about creating a strong statement and adding depth to a space and 'Ebony' absolutely hits the mark.
