MORE THAN
YOU CAN
IMAGINE

somfy

EXPERT

AUTOMATION

Most of our products can be motorised with wire-free or 220V motors. Our range of Somfy products complement and combine to create customisable and scalable solutions for your home or office.

The Somfy Tahoma allows users to operate all blinds, curtains and awnings from their smartphones or similar devices. Users can set timers for product groupings or set scenes for ease of use from anywhere in the world. As an appointed Somfy Expert, we will guide and assist you with your automation needs.

We also supply and install various other brands of motors and automation.
